Program Goals And Objectives

The Health Options for Moving toward Empowerment (HOME) Project is administered by Foundation Communities (FC), an experienced supportive housing and services provider located in Austin/Travis County, Texas for over twenty years. This effort will provide Permanent Supportive Housing combined with Assertive Community Treatment (ACT) team services and other community-based supports to serve chronically homeless individuals with co-occurring substance use disorders, mental health disorders, and/or chronic physical health conditions.

Program Clients Served

The focus population for this project will be formerly chronically homeless, unaccompanied individuals residing in Austin/Travis County, Texas living in FC single room occupant communities (Garden Terrace, Spring Terrace, Skyline Terrace, Arbor Terrace, Capital Studios, and Bluebonnet Studios) with diagnosed co-occurring disorders including:

- substance use disorders,
- mental health disorders, and/or
- chronic physical health conditions

Many will also be frequent users of the County jail and the Austin Resource Center for the Homeless emergency overnight shelter. They will likely have histories of disproportionate use of emergency medical services such as 911 transports, hospital emergency rooms, and inpatient psychiatric and substance abuse services. The selection of this population is based both on the major barriers to hope, self-sufficiency and personal empowerment, as well as the fact that despite the relatively small proportion of the area's homeless population they represent, they have disproportionately high utilization of these noted public systems.

All individuals will have incomes below 200% of the federal poverty level.

Program Services And Delivery

HOME will use an Assertive Community Treatment team service delivery strategy that will strive for fidelity to the model's principles and standards identified in published literature, including those enumerated in the SAMHSA Evidenced-Based Practices Kit "Assertive Community Treatment: Evaluating Your Program." Services will be provided directly by FC or through partnerships for integrated healthcare needs including physical health, mental health, and substance use disorders.

Consumer housing choice will be maximized to the greatest degree possible, and all housing will be provided by FC using a leased-based, Permanent Supportive Housing model at FC's single room occupant/efficiency apartment communities. Rental subsidies will be provided to ensure client rent contribution does not exceed thirty percent of Adjusted Gross Income. All clients admitted to the project will be current FC PSH tenants meeting the target population criteria, or those future tenants meeting target population criteria to be provided with FC PSH based on unit availability. Changes in residence do not require program exit if the client continues to demonstrate need for program services.

Project enrollees will not be required to participate in any specific mental health or substance abuse recovery treatment prior to entering housing, to remain in the housing, or to remain in the ACT team project once enrolled. Project participants also will not be required to maintain sobriety as a housing or project participation condition, but will be required to conduct themselves consistent with requirements of a standard Texas Apartment Association lease and written FC Community Standards distributed to all tenants. A Stages of Change approach will be employed to meet the clients at the recovery stage where project staff finds them, and project enrollees will develop a self-sufficiency plan reflecting their personal recovery and support goals.

Project participants will be identified and engaged using an array of assertive outreach approaches, including evidenced-based practices such as Critical Time Intervention and Motivational Interviewing. ACT team services will be targeted at appropriate tenants, and formal referrals will be made by supportive services, property management, and after hours support staff. This targeted assertive outreach will be directed to tenants meeting ACT Team qualifying criteria whose housing stability and wellness are jeopardized by having difficulty paying rent consistently, following community policies, or appearing to struggle with physical health, behavioral health, or substance use issues. All enrolled consumers will minimally have contact with an ACT team member or partner agency staff at least weekly during project enrollment. Additionally, informal

engagement will be achieved through participation by enrollees in community-building recreational/social activities at the PSH sites.

The ACT team positions funded specifically through this City of Austin contract will include a full-time ACT team leader/Project Director, multiple intensive case managers (ICM), and the peer recovery coaches (at least one supported employment/peer support specialist at each of five FC housing sites). The Team Leader(s), Registered Nurse, Peer Recovery Coaches, and Intensive Case Managers will all be housed in offices located at the FC PSH communities. Each intensive case manager will have a client to staff ratio that does not exceed 10 to 1. This client to staff ratio for intensive case management is based on published research that ACT team services have been demonstrated to be most effective with clients with the most intensive needs; therefore a client/staff ratio not exceeding 10 is needed to ensure that services can be provided at the intensity level required.

Clinical psychiatric and substance use disorder treatment services will be provided primarily by partner agencies. At least 2 part-time psychiatrists, one on-call and one clinic-based, will be shared among the 5 housing communities utilized in the project, as well as an at least half-time registered nurse. Clinical services will include psychiatric evaluations, psychopharmacological assessments, medication management, psychotherapy, intensive outpatient services for substance use, mental health, and co-occurring disorders, individual and group peer to peer recovery support services, psychotherapy using evidence-based models such as cognitive behavioral therapy and trauma-informed interventions, and clinical care management from a registered nurse for integrated primary and behavioral healthcare needs. Crisis psychiatric services will be provided after business hours by a crisis outreach team consisting of the Project Director/ACT team leader(s), on-call psychiatrist, intensive case managers and the project nurse. All FC SRO communities have onsite support staff 24 hours a day/7 days a week, as well as on-call ACT staff available after hours and on weekends.

Additional housing stability supports will include supported employment services, transportation assistance, and limited direct financial assistance focusing on emergency rental assistance, as well as healthcare, substance abuse treatment, and workforce reentry needs. Other contracted supports include access to a Goodwill Employment Specialist on-site, and in-home support services to assist with housekeeping, laundry, meal preparation, shopping, and companionship. All FC PSH also includes fitness and recreation equipment/facilities, as well as planned community-building activities both on and off site.

System for Collecting and Reporting Program Data

Foundation Communities collects, enters, and utilizes data throughout its services and programs. Foundation Communities also uses HMIS for its current contract with the City of Austin, has fulfilled all of the data entry and reporting requirements, and will continue to do so. Each program participant will be assessed with the Adult Needs and Strengths Assessment (ANSA) upon enrollment in the program and again at least annually. ANSA scores will be recorded and reported as required by the City of Austin.

Performance Evaluation

The Project Director will have the primary responsibility for performance evaluation, and will rely on a wide range of input from many sources, including data collected for this and other grant-funded projects. The FC Grants and Contracts Manager will perform all grant related reporting on the project to the City of Austin.

Quality Improvement

To ensure continuous quality improvement, Dr. William Kelly of UT-Austin, formerly the external evaluator for the FC SAMHSA funded project, will provide consultation (funded through other sources) on program processes, outcomes, and structure; as well as provide periodic feedback and technical assistance on an ongoing basis.

Service Coordination with Other Agencies

Lone Star Circle of Care (LSCC) will be the chief integrated primary care/behavioral health/psychiatric services provider. Lone Star Circle of Care is a Federally Qualified Community Health Center (10T FQHC1 0T) and a nonprofit organization whose goal is to serve as a health care "safety net" for Central Texas. For this project, LSCC will be providing a complete health care home (primary care and behavioral health services) for formerly chronically homeless individuals living in FC supportive housing.

Dr. Gregory Paul, MD will serve as the on-call psychiatrist. He is in private practice and has partnered with FC in this role since 2010. He is a Diplomate of the American Board of Psychiatry and Neurology with added Qualifications in Forensic Psychiatry. He has worked locally with Austin/Travis County Integral Care, Austin Recovery, Texas Star Recovery, the Austin Police Department, and in various contracted roles within the Travis County criminal justice system. Within this project, Dr. Paul will perform psychiatric evaluations, psychopharmacological assessments, medication management, and psychiatric crisis response to clients unwilling or unable to seek out such services at a clinic, to clients who need interventions immediately and after regular business, or for those clients who just prefer working with him. He provides this care onsite at FC SRO communities, and all services are provided at no cost to the clients.

Austin Recovery is one of the project's experienced, licensed substance abuse services provider. It is a non-profit alcohol and drug treatment provider serving medically indigent people who cannot afford health insurance or adequate medical care. Austin Recovery's treatment model combines advanced counseling and therapies with the principles of the 12 Step program to meet individual client needs. This approach incorporates the NIDA's 13 Principles of Effective Treatment and uses the best current practices in the field of chemical dependency treatment. After completing treatment, clients who wish to continue their recovery in a supportive setting can join our Alumni Association and participate in a year-round schedule of sobriety-based social and social service activities.

The Seton Mind Institute (SMI) is another of the project's experienced, licensed substance abuse services providers. As part of this project, SMI will provide an Adult Mental Health Intensive Outpatient Program designed to help individuals who do not require hospitalization, but can benefit from participation in a structured therapeutic environment. SMI offers Dialectical Behavioral Therapy (DBT), a model that assumes people who suffer intense emotional discomfort frequently engage in self-destructive and avoidance behaviors, and therefore DBT is designed to help adults who struggle with regulating their emotional responses and often act on impulsive behaviors. SMI's Adult Chemical Dependency Intensive Outpatient Program is specifically designed to treat alcohol and chemical dependency based on a 12-step model, and its Dual Recovery Intensive Outpatient Program is designed to serve the adult population experiencing a psychiatric disorder that is co-occurring with a substance abuse/chemical dependency problem.

Austin Clubhouse will provide supported employment services for the peer mentor and peer recovery support positions. A Clubhouse is a psychosocial rehabilitation program for adults with severe and persistent mental illness, designed to support their psychiatric stability by addressing quality of life issues -- namely, engaging in meaningful work (either volunteer or paid, or volunteer transitioning to paid) and in meaningful relationships. Participants are known as "members" and work side-by-side with Clubhouse staff to do the work of the Clubhouse. Membership is entirely voluntary, but the working atmosphere inside the Clubhouse is contagious, and members begin to experience what it is like to be needed and expected. The Clubhouse is organized around the work-ordered day, daily routines are normalized and Clubhouse activities focus on vocational and social experiences.

An array of other supports will be accessible to the project participants. In-kind support will also come in the form of Medicaid billing and RN Clinical Care Coordination through UnitedHealthcare. Additionally, the project will receive grant funding provided by the St. David's Foundation Healthy Minds program, the Travis County Criminal Justice Planning Division's Justice Reinvestment Initiative, and the Austin/Travis County Religious Coalition to End Homelessness. In addition to the Intensive Case Managers, clients will have access to regular meetings with the Supportive Service Coordinators at each housing site and/or with other members of the property management team as requested. Each housing site has a food pantry with regular monthly access, and occasional emergency access, available to all project participants. And given that many chronically homeless individuals will come with limited possessions, welcome baskets with household set-up items will be provided.

H.A.N.D will also provide in-home support services and individual support to assist clients in developing independent living skills as well as assist clients with performing basic housekeeping, meal preparation, and laundry activities. Austin Clubhouse will also provide transportation to medical appointments and shopping as needed. Classes will also be available onsite from agency staff and community partners on computer skills, personal fitness, healthy cooking, Self Management of Chronic Disease, Mental Health First Aid, and financial education with credit counseling.

Program Goals And Objectives

The Health Options for Moving toward Empowerment (HOME) Project is administered by Foundation Communities (FC), an experienced supportive housing and services provider located in Austin/Travis County, Texas for over twenty years. This effort will provide Permanent Supportive Housing combined with Assertive Community Treatment (ACT) team services and other community-based supports to serve chronically homeless individuals with co-occurring substance use disorders, mental health disorders, and/or chronic physical health conditions.

Program Clients Served

The focus population for this project will be formerly chronically homeless, unaccompanied individuals residing in Austin/Travis County, Texas living in FC single room occupant communities (Garden Terrace, Spring Terrace, Skyline Terrace, Arbor Terrace, and Capital Studios) with diagnosed co-occurring disorders including:

- substance use disorders,
- mental health disorders, and/or
- chronic physical health conditions

Many will also be frequent users of the County jail and the Austin Resource Center for the Homeless emergency overnight shelter. They will likely have histories of disproportionate use of emergency medical services such as 911 transports, hospital emergency rooms, and inpatient psychiatric and substance abuse services. The selection of this population is based both on the major barriers to hope, self-sufficiency and personal empowerment, as well as the fact that despite the relatively small proportion of the area's homeless population they represent, they have disproportionately high utilization of these noted public systems.

All individuals will have incomes below 200% of the federal poverty level, and will either be enrolled in Medicaid or be uninsured.

Program Services And Delivery

HOME will use an Assertive Community Treatment team service delivery strategy that will strive for fidelity to the model's principles and standards identified in published literature, including those enumerated in the SAMHSA Evidenced-Based Practices Kit "Assertive Community Treatment: Evaluating Your Program." Services will be provided directly by FC or through partnerships for integrated healthcare needs including physical health, mental health, and substance use disorders.

Consumer housing choice will be maximized to the greatest degree possible, and all housing will be provided by FC using a leased-based, Permanent Supportive Housing model at FC's single room occupant/efficiency apartment communities. Rental subsidies will be provided to ensure client rent contribution does not exceed thirty percent of Adjusted Gross Income. All clients admitted to the project will be current FC PSH tenants meeting the target population criteria, or those future tenants meeting target population criteria to be provided with FC PSH based on unit availability. Changes in residence do not require program exit if the client continues to demonstrate need for program services.

Project enrollees will not be required to participate in any specific mental health or substance abuse recovery treatment prior to entering housing, to remain in the housing, or to remain in the ACT team project once enrolled. Project participants also will not be required to maintain sobriety as a housing or project participation condition, but will be required to conduct themselves consistent with requirements of a standard Texas Apartment Association lease and written FC Community Standards distributed to all tenants. A Stages of Change approach will be employed to meet the clients at the recovery stage where project staff finds them, and project enrollees will develop a self-sufficiency plan reflecting their personal recovery and support goals.

Project participants will be identified and engaged using an array of assertive outreach approaches, including evidenced-based practices such as Critical Time Intervention and Motivational Interviewing. ACT team services will be targeted at appropriate tenants, and formal referrals will be made by supportive services, property management, and after hours support staff. This targeted assertive outreach will be directed to tenants meeting ACT Team qualifying criteria whose housing stability and wellness are jeopardized by having difficulty paying rent consistently, following community policies, or appearing to struggle with physical health, behavioral health, or substance use issues. All enrolled consumers will minimally have contact

with an ACT team member or partner agency staff at least weekly during project enrollment. Additionally, informal engagement will be achieved through participation by enrollees in community-building recreational/social activities at the PSH sites.

The ACT team positions funded specifically through this City of Austin contract will include a full-time ACT team leader/Project Director, multiple intensive case managers (ICM), and the peer recovery coaches (at least one supported employment/peer support specialist at each of five FC housing sites). The Team Leader(s), Registered Nurse, Peer Recovery Coaches, and Intensive Case Managers will all be housed in offices located at the FC PSH communities. Each intensive case manager will have a client to staff ratio that does not exceed 10 to 1. This client to staff ratio for intensive case management is based on published research that ACT team services have been demonstrated to be most effective with clients with the most intensive needs; therefore a client/staff ratio not exceeding 10 is needed to ensure that services can be provided at the intensity level required.

Clinical psychiatric and substance use disorder treatment services will be provided primarily by partner agencies. At least 2 part-time psychiatrists, one on-call and one clinic-based, will be shared among the 5 housing communities utilized in the project, as well as an at least half-time registered nurse. Clinical services will include psychiatric evaluations, psychopharmacological assessments, medication management, psychotherapy, intensive outpatient services for substance use, mental health, and co-occurring disorders, individual and group peer to peer recovery support services, psychotherapy using evidence-based models such as cognitive behavioral therapy and trauma-informed interventions, and clinical care management from a registered nurse for integrated primary and behavioral healthcare needs. Crisis psychiatric services will be provided after business hours by a crisis outreach team consisting of the Project Director/ACT team leader(s), on-call psychiatrist, intensive case managers and the project nurse. All FC SRO communities have onsite support staff 24 hours a day/7 days a week, as well as on-call ACT staff available after hours and on weekends.

Additional housing stability supports will include supported employment services, transportation assistance, and limited direct financial assistance focusing on emergency rental assistance, as well as healthcare, substance abuse treatment, and workforce reentry needs. Other contracted supports include access to a Goodwill Employment Specialist on-site, and in-home support services to assist with housekeeping, laundry, meal preparation, shopping, and companionship. All FC PSH also includes fitness and recreation equipment/facilities, as well as planned community-building activities both on and off site.

System for Collecting and Reporting Program Data

Foundation Communities collects, enters, and utilizes data throughout its services and programs. Foundation Communities also uses HMIS for its current contract with the City of Austin, has fulfilled all of the data entry and reporting requirements, and will continue to do so. Each program participant will be assessed with the Adult Needs and Strengths Assessment (ANSA) upon enrollment in the program and again at least annually. ANSA scores will be recorded and reported as required by the City of Austin.

Performance Evaluation

The Project Director will have the primary responsibility for performance evaluation, and will rely on a wide range of input from many sources, including data collected for this and other grant-funded projects. The FC Grants and Contracts Manager will perform all grant related reporting on the project to the City of Austin.

Quality Improvement

To ensure continuous quality improvement, Dr. William Kelly of UT-Austin, formerly the external evaluator for the FC SAMHSA funded project, will provide consultation (funded through other sources) on program processes, outcomes, and structure; as well as provide periodic feedback and technical assistance on an ongoing basis.

Service Coordination with Other Agencies

Lone Star Circle of Care (LSCC) will be the chief integrated primary care/behavioral health/psychiatric services provider. Lone Star Circle of Care is a Federally Qualified Community Health Center (10T FQHC1 0T) and a nonprofit organization whose goal is to serve as a health care "safety net" for Central Texas. For this project, LSCC will be providing a complete health care home (primary care and behavioral health services) for formerly chronically homeless individuals living in FC supportive housing.

Dr. Gregory Paul, MD will serve as the on-call psychiatrist. He is in private practice and has partnered with FC in this role since 2010. He is a Diplomate of the American Board of Psychiatry and Neurology with added Qualifications in Forensic Psychiatry. He has worked locally with Austin/Travis County Integral Care, Austin Recovery, Texas Star Recovery, the Austin Police Department, and in various contracted roles within the Travis County criminal justice system. Within this project, Dr. Paul will perform psychiatric evaluations, psychopharmacological assessments, medication management, and psychiatric crisis response to clients unwilling or unable to seek out such services at a clinic, to clients who need interventions immediately and after regular business, or for those clients who just prefer working with him. He provides this care onsite at FC SRO communities, and all services are provided at no cost to the clients.

Austin Recovery is one of the project's experienced, licensed substance abuse services provider. It is a non-profit alcohol and drug treatment provider serving medically indigent people who cannot afford health insurance or adequate medical care. Austin Recovery's treatment model combines advanced counseling and therapies with the principles of the 12 Step program to meet individual client needs. This approach incorporates the NIDA's 13 Principles of Effective Treatment and uses the best current practices in the field of chemical dependency treatment. After completing treatment, clients who wish to continue their recovery in a supportive setting can join our Alumni Association and participate in a year-round schedule of sobriety-based social and social service activities.

The Seton Mind Institute (SMI) is another of the project's experienced, licensed substance abuse services providers. As part of this project, SMI will provide an Adult Mental Health Intensive Outpatient Program designed to help individuals who do not require hospitalization, but can benefit from participation in a structured therapeutic environment. SMI offers Dialectical Behavioral Therapy (DBT), a model that assumes people who suffer intense emotional discomfort frequently engage in self-destructive and avoidance behaviors, and therefore DBT is designed to help adults who struggle with regulating their emotional responses and often act on impulsive behaviors. SMI's Adult Chemical Dependency Intensive Outpatient Program is specifically designed to treat alcohol and chemical dependency based on a 12-step model, and its Dual Recovery Intensive Outpatient Program is designed to serve the adult population experiencing a psychiatric disorder that is co-occurring with a substance abuse/chemical dependency problem.

Austin Clubhouse will provide supported employment services for the peer mentor and peer recovery support positions. A Clubhouse is a psychosocial rehabilitation program for adults with severe and persistent mental illness, designed to support their psychiatric stability by addressing quality of life issues – namely, engaging in meaningful work (either volunteer or paid, or volunteer transitioning to paid) and in meaningful relationships. Participants are known as "members" and work side-by-side with Clubhouse staff to do the work of the Clubhouse. Membership is entirely voluntary, but the working atmosphere inside the Clubhouse is contagious, and members begin to experience what it is like to be needed and expected. The Clubhouse is organized around the work-ordered day, daily routines are normalized and Clubhouse activities focus on vocational and social experiences.

An array of other supports will be accessible to the project participants. In-kind support will also come in the form of Medicaid billing and RN Clinical Care Coordination through UnitedHealthcare. Additionally, the project will receive grant funding provided by the St. David's Foundation Healthy Minds program, the Travis County Criminal Justice Planning Division's Justice Reinvestment Initiative, and the Austin/Travis County Religious Coalition to End Homelessness. In addition to the Intensive Case Managers, clients will have access to regular meetings with the Supportive Service Coordinators at each housing site and/or with other members of the property management team as requested. Each housing site has a food pantry with regular monthly access, and occasional emergency access, available to all project participants. And given that many chronically homeless individuals will come with limited possessions, welcome baskets with household set-up items will be provided.

H.A.N.D will also provide in-home support services and individual support to assist clients in developing independent living skills as well as assist clients with performing basic housekeeping, meal preparation, and laundry activities. Austin Clubhouse will also provide transportation to medical appointments and shopping as needed. Classes will also be available onsite from agency staff and community partners on computer skills, personal fitness, healthy cooking, Self Management of Chronic Disease, Mental Health First Aid, and financial education with credit counseling.

Grantee shall assure that all Agreement provisions are met by any Subgrantee performing services for the Grantee.

Section 4.1 **Agreement Amount.** The Grantee acknowledges and agrees that, notwithstanding any other provision of this Agreement, the maximum amount payable by the City under this Agreement for the initial 38 month term shall not exceed the amount approved by City Council, which is **\$1,046,500 (One Million Forty Six Thousand Five Hundred dollars)**, for a total Agreement amount of \$1,046,500. Continuation of the Agreement beyond the initial 38 months is specifically contingent upon the availability and allocation of funding, and authorization by City Council.

Section 4.1.1.2 Transfers between or among the approved budget categories in excess of 10% or more than \$50,000 will require the City Agreement Manager's approval, and must meet all of the conditions outlined in Section 4.1.1.1 (ii) and (iii) above.

The City's payment obligations are payable only and solely from funds appropriated and available for this Agreement. The absence of appropriated or other lawfully available funds shall render the Agreement null and void to the extent funds are not appropriated or available and any deliverables delivered but unpaid shall be returned to the Grantee. The City shall provide the Grantee written notice of the failure of the City to make an adequate appropriation for any fiscal year to pay the amounts due under the Agreement, or the reduction of any appropriation to an amount insufficient to permit the City to pay its obligations under the Agreement. Grantee must be able to produce an accounting system-generated report of exact expenses or portions of expenses charged to the City for any given time period.

Section 4.8.1 Reimbursement Only. Expenses and/or expenditures shall be considered reimbursable only if incurred during the current Program Period identified in Section 4.1.2, directly and specifically in the performance of this Agreement, and in conformance with the Agreement Exhibits. Grantee agrees that, unless otherwise specifically provided for in this Agreement, payment by the City under the terms of this Agreement is made on a reimbursement basis only; Grantee must have incurred and paid costs prior to those costs being invoiced and considered allowable under this Agreement and subject to payment by the City. Expenses incurred during the Program Period may be paid up to 30 days after the end of the Program Period and included in the Final Payment Request for the Program Period, which shall be due no later than 5 p.m. CST 5 business days before the due date for the Grantee's annual Contract Progress Report or Contract Closeout Summary Report, whichever is applicable.

Program Work Statement

Contract Start Date 11/1/2014 Contract End Date 12/31/2017

Program Goals And Objectives

The Health Options for Moving toward Empowerment (HOME) Project is administered by Foundation Communities (FC), an experienced supportive housing and services provider located in Austin/Travis County, Texas for over twenty years. This effort will provide Permanent Supportive Housing combined with Assertive Community Treatment (ACT) team services and other community-based supports to serve chronically homeless individuals with co-occurring substance use disorders, mental health disorders, and/or chronic physical health conditions. HOME will serve 40 unduplicated individuals over the 38 month project period.

Program Clients Served

The focus population for this project will be formerly chronically homeless, unaccompanied individuals residing in Austin/Travis County, Texas living in FC single room occupant communities (Garden Terrace, Spring Terrace, Skyline Terrace, Arbor Terrace, and Capital Studios) with diagnosed co-occurring disorders including:

- substance use disorders,
- mental health disorders, and/or
- chronic physical health conditions

Many will also be frequent users of the County jail and the Austin Resource Center for the Homeless emergency overnight shelter. They will likely have histories of disproportionate use of emergency medical services such as 911 transports, hospital emergency rooms, and inpatient psychiatric and substance abuse services. The selection of this population is based both on the major barriers to hope, self-sufficiency and personal empowerment, as well as the fact that despite the relatively small proportion of the area's homeless population they represent, they have disproportionately high utilization of these noted public systems.

All individuals will have incomes below 200% of the federal poverty level, and will either be enrolled in Medicaid or be uninsured.

Program Services And Delivery

HOME will use an Assertive Community Treatment team service delivery strategy that will strive for fidelity to the model's principles and standards identified in published literature, including those enumerated in the SAMHSA Evidenced-Based Practices Kit "Assertive Community Treatment: Evaluating Your Program." Services will be provided directly by FC or through partnerships for integrated healthcare needs including physical health, mental health, and substance use disorders.

Consumer housing choice will be maximized to the greatest degree possible, and all housing will be provided by FC using a leased-based, Permanent Supportive Housing model at FC's single room occupant/efficiency apartment communities. Rental subsidies will be provided to ensure client rent contribution does not exceed thirty percent of Adjusted Gross Income. All clients admitted to the project will be current FC PSH tenants meeting the target population criteria, or those future tenants meeting target population criteria to be provided with FC PSH based on unit availability. Changes in residence do not require program exit if the client continues to demonstrate need for program services.

Project enrollees will not be required to participate in any specific mental health or substance abuse recovery treatment prior to entering housing, to remain in the housing, or to remain in the ACT team project once enrolled. Project participants also will not be required to maintain sobriety as a housing or project participation condition, but will be required to conduct themselves consistent with requirements of a standard Texas Apartment Association lease and written FC Community Standards distributed to all tenants. A Stages of Change approach will be employed to meet the clients at the recovery stage where project staff finds them, and project enrollees will develop a self-sufficiency plan reflecting their personal recovery and support goals.

Project participants will be identified and engaged using an array of assertive outreach approaches, including evidenced-based practices such as Critical Time Intervention and Motivational Interviewing. ACT team services will be targeted at appropriate tenants, and formal referrals will be made by supportive services, property management, and after hours support staff. This targeted assertive outreach will be directed to tenants meeting ACT Team qualifying criteria whose housing stability and wellness are jeopardized by having difficulty paying rent consistently, following community policies, or appearing to struggle with physical health, behavioral health, or substance use issues. All enrolled consumers will minimally have

contact with an ACT team member or partner agency staff at least weekly during project enrollment. Additionally, informal engagement will be achieved through participation by enrollees in community-building recreational/social activities at the PSH sites.

The ACT team positions funded specifically through this City of Austin contract will include a full-time ACT team leader/Project Director, multiple intensive case managers (ICM), and the peer recovery coaches (at least one supported employment/peer support specialist at each of five FC housing sites). The Team Leader(s), Registered Nurse, Peer Recovery Coaches, and Intensive Case Managers will all be housed in offices located at the FC PSH communities. Each intensive case manager will have a client to staff ratio that does not exceed 10 to 1. This client to staff ratio for intensive case management is based on published research that ACT team services have been demonstrated to be most effective with clients with the most intensive needs; therefore a client/staff ratio not exceeding 10 is needed to ensure that services can be provided at the intensity level required.

Clinical psychiatric and substance use disorder treatment services will be provided primarily by partner agencies. At least 2 part-time psychiatrists, one on-call and one clinic-based, will be shared among the 5 housing communities utilized in the project, as well as an at least half-time registered nurse. Clinical services will include psychiatric evaluations, psychopharmacological assessments, medication management, psychotherapy, intensive outpatient services for substance use, mental health, and co-occurring disorders, individual and group peer to peer recovery support services, psychotherapy using evidence-based models such as cognitive behavioral therapy and trauma-informed interventions, and clinical care management from a registered nurse for integrated primary and behavioral healthcare needs. Crisis psychiatric services will be provided after business hours by a crisis outreach team consisting of the Project Director/ACT team leader(s), on-call psychiatrist, intensive case managers and the project nurse. All FC SRO communities have onsite support staff 24 hours a day/7 days a week, as well as on-call ACT staff available after hours and on weekends.

Additional housing stability supports will include supported employment services, transportation assistance, and limited direct financial assistance focusing on emergency rental assistance, as well as healthcare, substance abuse treatment, and workforce reentry needs. Other contracted supports include access to a Goodwill Employment Specialist on-site, and in-home support services to assist with housekeeping, laundry, meal preparation, shopping, and companionship. All FC PSH also includes fitness and recreation equipment/facilities, as well as planned community-building activities both on and off site.

System for Collecting and Reporting Program Data

Foundation Communities collects, enters, and utilizes data throughout its services and programs. Foundation Communities also uses HMIS for its current contract with the City of Austin, has fulfilled all of the data entry and reporting requirements, and will continue to do so. Each program participant will be assessed with the Adult Needs and Strengths Assessment (ANSA) upon enrollment in the program and again at least annually. ANSA scores will be recorded and reported as required by the City of Austin.

Performance Evaluation

The Project Director will have the primary responsibility for performance evaluation, and will rely on a wide range of input from many sources, including data collected for this and other grant-funded projects. The FC Grants and Contracts Manager will perform all grant related reporting on the project to the City of Austin.

Quality Improvement

To ensure continuous quality improvement, Dr. William Kelly of UT-Austin, formerly the external evaluator for the FC SAMHSA funded project, will provide consultation (funded through other sources) on program processes, outcomes, and structure; as well as provide periodic feedback and technical assistance on an ongoing basis.

Service Coordination with Other Agencies

Lone Star Circle of Care (LSCC) will be the chief integrated primary care/behavioral health/psychiatric services provider. Lone Star Circle of Care is a Federally Qualified Community Health Center (10T FQHC1 0T) and a nonprofit organization whose goal is to serve as a health care "safety net" for Central Texas. For this project, LSCC will be providing a complete health care home (primary care and behavioral health services) for formerly chronically homeless individuals living in FC supportive housing.

Dr. Gregory Paul, MD will serve as the on-call psychiatrist. He is in private practice and has partnered with FC in this role since 2010. He is a Diplomate of the American Board of Psychiatry and Neurology with added Qualifications in Forensic Psychiatry. He has worked locally with Austin/Travis County Integral Care, Austin Recovery, Texas Star Recovery, the Austin Police Department, and in various contracted roles within the Travis County criminal justice system. Within this project, Dr. Paul will perform psychiatric evaluations, psychopharmacological assessments, medication management, and psychiatric crisis response to clients unwilling or unable to seek out such services at a clinic, to clients who need interventions immediately and after regular business, or for those clients who just prefer working with him. He provides this care onsite at FC SRO communities, and all services are provided at no cost to the clients.

Austin Recovery is one of the project's experienced, licensed substance abuse services provider. It is a non-profit alcohol and drug treatment provider serving medically indigent people who cannot afford health insurance or adequate medical care. Austin Recovery's treatment model combines advanced counseling and therapies with the principles of the 12 Step program to meet individual client needs. This approach incorporates the NIDA's 13 Principles of Effective Treatment and uses the best current practices in the field of chemical dependency treatment. After completing treatment, clients who wish to continue their recovery in a supportive setting can join our Alumni Association and participate in a year-round schedule of sobriety-based social and social service activities.

The Seton Mind Institute (SMI) is another of the project's experienced, licensed substance abuse services providers. As part of this project, SMI will provide an Adult Mental Health Intensive Outpatient Program designed to help individuals who do not require hospitalization, but can benefit from participation in a structured therapeutic environment. SMI offers Dialectical Behavioral Therapy (DBT), a model that assumes people who suffer intense emotional discomfort frequently engage in self-destructive and avoidance behaviors, and therefore DBT is designed to help adults who struggle with regulating their emotional responses and often act on impulsive behaviors. SMI's Adult Chemical Dependency Intensive Outpatient Program is specifically designed to treat alcohol and chemical dependency based on a 12-step model, and its Dual Recovery Intensive Outpatient Program is designed to serve the adult population experiencing a psychiatric disorder that is co-occurring with a substance abuse/chemical dependency problem.

Austin Clubhouse will provide supported employment services for the peer mentor and peer recovery support positions. A Clubhouse is a psychosocial rehabilitation program for adults with severe and persistent mental illness, designed to support their psychiatric stability by addressing quality of life issues -- namely, engaging in meaningful work (either volunteer or paid, or volunteer transitioning to paid) and in meaningful relationships. Participants are known as "members" and work side-by-side with Clubhouse staff to do the work of the Clubhouse. Membership is entirely voluntary, but the working atmosphere inside the Clubhouse is contagious, and members begin to experience what it is like to be needed and expected. The Clubhouse is organized around the work-ordered day, daily routines are normalized and Clubhouse activities focus on vocational and social experiences.

An array of other supports will be accessible to the project participants. In-kind support will also come in the form of Medicaid billing and RN Clinical Care Coordination through UnitedHealthcare. Additionally, the project will receive grant funding provided by the St. David's Foundation Healthy Minds program, the Travis County Criminal Justice Planning Division's Justice Reinvestment Initiative, and the Austin/Travis County Religious Coalition to End Homelessness. In addition to the Intensive Case Managers, clients will have access to regular meetings with the Supportive Service Coordinators at each housing site and/or with other members of the property management team as requested. Each housing site has a food pantry with regular monthly access, and occasional emergency access, available to all project participants. And given that many chronically homeless individuals will come with limited possessions, welcome baskets with household set-up items will be provided.

H.A.N.D will also provide in-home support services and individual support to assist clients in developing independent living skills as well as assist clients with performing basic housekeeping, meal preparation, and laundry activities. Austin Clubhouse will also provide transportation to medical appointments and shopping as needed. Classes will also be available onsite from agency staff and community partners on computer skills, personal fitness, healthy cooking, Self Management of Chronic Disease, Mental Health First Aid, and financial education with credit counseling.

In the event that Business Associate works for more than one Covered Entity, Business Associate is permitted to use and disclose PHI for data aggregation purposes, however, only in order to analyze data for permitted health care operations, and only to the extent that such use is permitted under the HIPAA Rules.
- 3. De-identified Information. Business Associate may use and disclose de-identified health information if written approval from the Covered Entity is obtained, and the PHI is de-identified in compliance with the HIPAA Rules. Moreover, Business Associate shall review and comply with the requirements defined under Section E. of this Agreement.
- 4. Safeguards.
 - (a) Business Associate shall maintain appropriate safeguards to ensure that PHI is not used or disclosed other than as provided by this Agreement or as Required by Law. Business Associate shall implement administrative, physical and technical safeguards that reasonably and appropriately protect the confidentiality, integrity, and availability of any paper or electronic PHI it creates, receives, maintains, or transmits on behalf of Covered Entity.
 - (b) Business Associate shall assure that all PHI be secured when accessed by Business Associate's employees, agents or subcontractor. Any access to PHI by Business Associate's employees, agents or subcontractors shall be limited to legitimate business needs while working with PHI. Any personnel changes by Business Associate, eliminating the legitimate business needs for employees, agents or contractors access to PHI – either by revision of duties or termination – shall be immediately reported to Covered Entity. Such reporting shall be made no later than the third business day after the personnel change becomes effective.

5. Minimum Necessary. Business Associate shall ensure that all uses and disclosures of PHI are subject to the principle of “minimum necessary use and disclosure,” i.e., that only PHI that is the minimum necessary to accomplish the intended purpose of the use, disclosure, or request is used or disclosed; and, the use of limited data sets when possible.
6. Disclosure to Agents and Subcontractors. If Business Associate discloses PHI received from Covered Entity, or created or received by Business Associate on behalf of Covered Entity, to agents, including a subcontractor, Business Associate shall require the agent or subcontractor to agree to the same restrictions and conditions as apply to Business Associate under this Agreement. Business Associate shall ensure that any agent, including a subcontractor, agrees to implement reasonable and appropriate safeguards to protect the confidentiality, integrity, and availability of the paper or electronic PHI that it creates, receives, maintains, or transmits on behalf of the Covered Entity. Business Associate shall be liable to Covered Entity for any acts, failures or omissions of the agent or subcontractor in providing the services as if they were Business Associate’s own acts, failures or omissions, to the extent permitted by law. Business Associate further expressly warrants that its agents or subcontractors will be specifically advised of, and will comply in all respects with, the terms of this Agreement.
7. Individual Rights Regarding Designated Record Sets. If Business Associate maintains a Designated Record Set on behalf of Covered Entity Business Associate agrees as follows:
 - (a) Individual Right to Copy or Inspection. Business Associate agrees that if it maintains a Designated Record Set for Covered Entity that is not maintained by Covered Entity, it will permit an Individual to inspect or copy PHI about the Individual in that set as directed by Covered Entity to meet the requirements of 45 C.F.R. § 164.524. If the PHI is in electronic format, the Individual shall have a right to obtain a copy of such information in electronic format and, if the Individual chooses, to direct that an electronic copy be transmitted directly to an entity or person designated by the individual in accordance with HITECH section 13405 (c). Under the Privacy Rule, Covered Entity is required to take action on such requests as soon as possible, but not later than 30 days following receipt of the request. Business Associate agrees to make reasonable efforts to assist Covered Entity in meeting this deadline. The information shall be provided in the form or format requested if it is readily producible in such form or format; or in summary, if the Individual has agreed in advance to accept the information in summary form. A reasonable, cost-based fee for copying health information may be charged. If Covered Entity maintains the requested records, Covered Entity, rather than Business Associate shall permit access according to its policies and procedures implementing the Privacy Rule.

- (b) Individual Right to Amendment. Business Associate agrees, if it maintains PHI in a Designated Record Set, to make amendments to PHI at the request and direction of Covered Entity pursuant to 45 C.F.R. §164.526. If Business Associate maintains a record in a Designated Record Set that is not also maintained by Covered Entity, Business Associate agrees that it will accommodate an Individual's request to amend PHI only in conjunction with a determination by Covered Entity that the amendment is appropriate according to 45 C.F.R. §164.526.
 - (c) Accounting of Disclosures. Business Associate agrees to maintain documentation of the information required to provide an accounting of disclosures of PHI, whether PHI is paper or electronic format, in accordance with 45 C.F.R. §164.528 and HITECH Sub Title D Title VI Section 13405 (c), and to make this information available to Covered Entity upon Covered Entity's request, in order to allow Covered Entity to respond to an Individual's request for accounting of disclosures. Under the Privacy Rule, Covered Entity is required to take action on such requests as soon as possible but not later than 60 days following receipt of the request. Business Associate agrees to use its best efforts to assist Covered Entity in meeting this deadline but not later than 45 days following receipt of the request. Such accounting must be provided without cost to the individual or Covered Entity if it is the first accounting requested by an individual within any 12 month period; however, a reasonable, cost-based fee may be charged for subsequent accountings if Business Associate informs the individual in advance of the fee and is afforded an opportunity to withdraw or modify the request. Such accounting is limited to disclosures that were made in the six (6) years prior to the request (not including disclosures prior to the compliance date of the Privacy Rule) and shall be provided for as long as Business Associate maintains the PHI.
- 8. Internal Practices, Policies and Procedures. Except as otherwise specified herein, Business Associate shall make available its internal practices, books, records, policies and procedures relating to the use and disclosure of PHI, received from or on behalf of Covered Entity to the Secretary or his or her agents for the purpose of determining Covered Entity's compliance with the HIPAA Rules, or any other health oversight agency, or to Covered Entity. Records requested that are not protected by an applicable legal privilege will be made available in the time and manner specified by Covered Entity or the Secretary.
 - 9. Notice of Privacy Practices. Business Associate shall abide by the limitations of Covered Entity's Notice of which it has knowledge. Any use or disclosure permitted by this Agreement may be amended by changes to Covered Entity's Notice; provided, however, that the amended Notice shall not affect permitted uses and disclosures on which Business Associate relied prior to receiving notice of such amended Notice.

10. Withdrawal of Authorization. If the use or disclosure of PHI in this Agreement is based upon an Individual's specific authorization for the use or disclosure of his or her PHI, and the Individual revokes such authorization, the effective date of such authorization has expired, or such authorization is found to be defective in any manner that renders it invalid, Business Associate shall, if it has notice of such revocation, expiration, or invalidity, cease the use and disclosure of the Individual's PHI except to the extent it has relied on such use or disclosure, or if an exception under the Privacy Rule expressly applies.
11. Knowledge of HIPAA Rules. Business Associate agrees to review and understand the HIPAA Rules as it applies to Business Associate, and to comply with the applicable requirements of the HIPAA Rule, as well as any applicable amendments.
12. Information Incident Notification for PHI. Business Associate will report any successful Incident of which it becomes aware and at the request of the Covered Entity, will identify: the date of the Incident, scope of Incident, Business Associate's response to the Incident, and the identification of the party responsible for causing the Incident.
13. Information Breach Notification for PHI. Business Associate expressly recognizes that Covered Entity has certain reporting and disclosure obligations to the Secretary and the Individual in case of a security breach of unsecured PHI. Where Business Associate accesses, maintains, retains, modifies, records, stores, destroys, or otherwise holds, uses or discloses unsecured paper or electronic PHI, Business Associate immediately following the "discovery" (within the meaning of 45 C.F.R. §164.410(a)) of a breach of such information, shall notify Covered Entity of such breach. Initial notification of the breach does not need to be in compliance with 45 C.F.R. §164.404(c); however, Business Associate must provide Covered Entity with all information necessary for Covered Entity to comply with 45 C.F.R. §164.404(c) without reasonable delay, and in no case later than three days following the discovery of the breach. Business Associate shall be liable for the costs associated with such breach if caused by the Business Associate's negligent or willful acts or omissions, or the negligent or willful acts or omissions of Business Associate's agents, officers, employees or subcontractors.
14. Breach Notification to Individuals. Business Associate's duty to notify Covered Entity of any breach does not permit Business Associate to notify those individuals whose PHI has been breached by Business Associate without the express written permission of Covered Entity to do so. Any and all notification to those individuals whose PHI has been breached shall be made by the Business Associate under the direction, review and control of Covered Entity. The Business Associate will notify the Covered Entity via telephone with follow-up in writing to include; name of individuals whose PHI was breached, information breached, date of breach, form of breach, etc. The cost of the notification will be paid by the Business Associate.
15. Information Breach Notification for Other Sensitive Personal Information. In addition to the reporting under Section D.12, Business Associate shall notify

Covered Entity of any breach of computerized Sensitive Personal Information (as determined pursuant to Title 11, subtitle B, chapter 521, Subchapter A, Section 521.053, Texas Business & Commerce Code) to assure Covered Entity's compliance with the notification requirements of Title 11, Subtitle B, Chapter 521, Subchapter A, Section 521.053, Texas Business & Commerce Code. Accordingly, Business Associate shall be liable for all costs associated with any breach caused by Business Associate's negligent or willful acts or omissions, or those negligent or willful acts or omissions of Business Associate's agents, officers, employees or subcontractors.

- E. Permitted Uses and Disclosures by Business Associates. Except as otherwise limited in this Agreement, Business Associate may use or disclose Protected Health Information to perform functions, activities, or services for, or on behalf of, Covered Entity as specified in this Business Associates Agreement or in a Master Services Agreement, provided that such use or disclosure would not violate the HIPAA Rules if done by Covered Entity or the minimum necessary policies and procedures of the Covered Entity. Also, Business Associate may use PHI to report violations of law to appropriate Federal and State authorities, consistent with the HIPAA Rules.
1. Use. Business Associate will not, and will ensure that its directors, officers, employees, contractors and other agents do not, use PHI other than as permitted or required by Business Associate to perform the Services or as required by law, but in no event in any manner that would constitute a violation of the Privacy Standards or Security standards if used by Covered Entity.
 2. Disclosure. Business Associate will not, and will ensure that its directors, officers, employees, contractors, and other agents do not, disclose PHI other than as permitted pursuant to this arrangement or as required by law, but in no event disclose PHI in any manner that would constitute a violation of the Privacy Standards or Security Standards if disclosed by Covered Entity.
 3. Business Associate acknowledges and agrees that Covered Entity owns all right, title, and interest in and to all PHI, and that such right, title, and interest will be vested in Covered Entity. Neither Business Associate nor any of its employees, agents, consultants or assigns will have any rights in any of the PHI, except as expressly set forth above. Business Associate represents, warrants, and covenants that it will not compile and/or distribute analyses to third parties using any PHI without Covered Entity's express written consent.
- F. Application of Security and Privacy Provisions to Business Associate.
1. Security Measures. Sections 164.308, 164.310, 164.312 and 164.316 of Title 45 of the Code of Federal Regulations dealing with the administrative, physical and technical safeguards as well as policies, procedures and documentation requirements that apply to Covered Entity shall in the same manner apply to Business Associate. Any additional security requirements contained in Sub Title D of Title IV of the HITECH Act that apply to Covered Entity shall also apply to Business Associate. Pursuant to

the foregoing requirements in this section, the Business Associate will implement administrative, physical, and technical safeguards that reasonably and appropriately protect the confidentiality, integrity, and availability of the paper or electronic PHI that it creates, has access to, or transmits. Business Associate will also ensure that any agent, including a subcontractor, to whom it provides such information, agrees to implement reasonable and appropriate safeguards to protect such information. Business Associate will ensure that PHI contained in portable devices or removable media is encrypted.

2. Annual Guidance. For the first year beginning after the date of the enactment of the HITECH Act and annually thereafter, the Secretary shall annually issue guidance on the most effective and appropriate technical safeguards for use in carrying out the sections referred to in subsection (a) and the security standards in subpart C of part 164 of title 45, Code of Federal Regulations. Business Associate shall, at their own cost and effort, monitor the issuance of such guidance and comply accordingly.
3. Privacy Provisions. The enhanced HIPAA privacy requirements including but not necessarily limited to accounting for certain PHI disclosures for treatment, restrictions on the sale of PHI, restrictions on marketing and fundraising communications, payment and health care operations contained Subtitle D of the HITECH Act that apply to the Covered entity shall equally apply to the Business Associate.
4. Application of Civil and Criminal Penalties. If Business Associate violates any security or privacy provision specified in subparagraphs (1) and (2) above, sections 1176 and 1177 of the Social Security Act (42 U.S.C. 1320d-5, 1320d-6) shall apply to Business Associate with respect to such violation in the same manner that such sections apply to Covered Entity if it violates such provisions.

G. Term and Termination.

1. Term. This Agreement shall be effective as of the Effective Date and shall be terminated when all PHI provided to Business Associate by Covered Entity, or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity.
2. Termination for Cause. Upon Covered entity's knowledge of a material breach by Business Associate, Covered Entity shall either:
 - a. Provide an opportunity for Business Associate to cure the breach within 30 days of written notice of such breach or end the violation and terminate this Agreement, whether it is in the form of a stand alone agreement or an addendum to a Master Services Agreement, if Business Associate does not cure the breach or end the violation within the time specified by Covered Entity; or
 - b. Immediately terminate this Agreement whether it is in the form of a stand alone agreement or an addendum to a Master Services Agreement if

Business associate has breached a material term of this Agreement and cure is not possible.

3. **Effect of Termination.** Upon termination of this Agreement for any reason, Business Associate agrees to return or destroy all PHI received from Covered Entity, or created or received by Business Associate on behalf of Covered Entity, maintained by Business Associate in any form. If Business Associate determines that the return or destruction of PHI is not feasible, Business Associate shall inform Covered Entity in writing of the reason thereof, and shall agree to extend the protections of this Agreement to such PHI and limit further uses and disclosures of the PHI to those purposes that make the return or destruction of the PHI not feasible for so long as Business Associate retains the PHI.

H. **Miscellaneous.**

1. **Indemnification.** To the extent permitted by law, Business Associate agrees to indemnify and hold harmless Covered Entity from and against all claims, demands, liabilities, judgments or causes of action of any nature for any relief, elements of recovery or damages recognized by law (including, without limitation, attorney's fees, defense costs, and equitable relief), for any damage or loss incurred by Covered Entity arising out of, resulting from, or attributable to any acts or omissions or other conduct of Business Associate or its agents in connection with the performance of Business Associate's or its agents' duties under this Agreement. This indemnity shall apply even if Covered Entity is alleged to be solely or jointly negligent or otherwise solely or jointly at fault; provided, however, that a trier of fact finds Covered Entity not to be solely or jointly negligent or otherwise solely or jointly at fault. This indemnity shall not be construed to limit Covered Entity's rights, if any, to common law indemnity.

Covered Entity shall have the option, at its sole discretion, to employ attorneys selected by it to defend any such action, the costs and expenses of which shall be the responsibility of Business Associate. Covered Entity shall provide Business Associate with timely notice of the existence of such proceedings and such information, documents and other cooperation as reasonably necessary to assist Business Associate in establishing a defense to such action.

These indemnities shall survive termination of this Agreement, and Covered Entity reserves the right, at its option and expense, to participate in the defense of any suit or proceeding through counsel of its own choosing.

2. **Mitigation.** If Business Associate violates this Agreement or either of the HIPAA Rules, Business Associate agrees to mitigate any damage caused by such breach.
3. **Rights of Proprietary Information.** Covered Entity retains any and all rights to the proprietary information, confidential information, and PHI it releases to Business Associate.
4. **Survival.** The respective rights and obligations of Business Associate under Section E.3 of this Agreement shall survive the termination of this Agreement.

5. Notices. Any notices pertaining to this Agreement shall be given in writing and shall be deemed duly given when personally delivered to a Party or a Party's authorized representative as listed in Section 8.7 of the agreement between the City and Grantee or sent by means of a reputable overnight carrier, or sent by means of certified mail, return receipt requested, postage prepaid. A notice sent by certified mail shall be deemed given on the date of receipt or refusal of receipt.
6. Amendments. This Agreement may not be changed or modified in any manner except by an instrument in writing signed by a duly authorized officer of each of the Parties hereto. The Parties, however, agree to amend this Agreement from time to time as necessary, in order to allow Covered Entity to comply with the requirements of the HIPAA Rules.
7. Choice of Law. This Agreement and the rights and the obligations of the Parties hereunder shall be governed by and construed under the laws of the State of Texas without regard to applicable conflict of laws principles.
8. Assignment of Rights and Delegation of Duties. This Agreement is binding upon and inures to the benefit of the Parties hereto and their respective successors and permitted assigns. However, neither Party may assign any of its rights or delegate any of its obligations under this Agreement without the prior written consent of the other Party, which consent shall not be unreasonably withheld or delayed. Notwithstanding any provisions to the contrary, however, Covered Entity retains the right to assign or delegate any of its rights or obligations hereunder to any of its wholly owned subsidiaries, affiliates or successor companies. Assignments made in violation of this provision are null and void.
9. Nature of Agreement. Nothing in this Agreement shall be construed to create (i) a partnership, joint venture or other joint business relationship between the Parties or any of their affiliates, (ii) any fiduciary duty owed by one Party to another Party or any of its affiliates, or (iii) a relationship of employer and employee between the Parties.
10. No Waiver. Failure or delay on the part of either Party to exercise any right, power, privilege or remedy hereunder shall not constitute a waiver thereof. No provision of this Agreement may be waived by either Party except by a writing signed by an authorized representative of the Party making the waiver.
11. Equitable Relief. Any disclosure of misappropriation of PHI by Business Associate in violation of this Agreement will cause Covered Entity irreparable harm, the amount of which may be difficult to ascertain. Business Associate therefore agrees that Covered Entity shall have the right to apply to a court of competent jurisdiction for specific performance and/or an order restraining and enjoining Business Associate from any such further disclosure or breach, and for such other relief as Covered Entity shall deem appropriate. Such rights are in addition to any other remedies available to Covered Entity at law or in equity. Business Associate expressly waives the defense that a remedy in damages will be adequate, and further waives any requirement in an action for specific performance or injunction for the posting of a bond by Covered Entity.

12. Severability. The provisions of this Agreement shall be severable, and if any provision of this Agreement shall be held or declared to be illegal, invalid or unenforceable, the remainder of this Agreement shall continue in full force and effect as though such illegal, invalid or unenforceable provision had not been contained herein.
13. No Third Party Beneficiaries. Nothing in this Agreement shall be considered or construed as conferring any right or benefit on a person not a party to this Agreement nor imposing any obligations on either Party hereto to persons not a party to this Agreement.
14. Headings. The descriptive headings of the articles, sections, subsections, exhibits and schedules of this Agreement are inserted for convenience only, do not constitute a part of this Agreement and shall not affect in any way the meaning or interpretation of this Agreement.
15. Entire Agreement. This Agreement, together with all Exhibits, Riders and amendments, if applicable, which are fully completed and signed by authorized persons on behalf of both Parties from time to time while this Agreement is in effect, constitutes the entire Agreement between the Parties hereto with respect to the subject matter hereof and supersedes all previous written or oral understandings, agreements, negotiations, commitments, and any other writing and communication by or between the Parties with respect to the subject matter hereof. In the event of any inconsistencies between any provisions of this Agreement in any provisions of the Exhibits, Riders, or amendments, the provisions of this Agreement shall control.
16. Interpretation. Any ambiguity in this Agreement shall be resolved in favor of a meaning that permits Covered Entity to comply with the HIPAA Rules and any applicable state confidentiality laws. The provisions of this Agreement shall prevail over the provisions of any other agreement that exists between the Parties that may conflict with, or appear inconsistent with, any provision of this Agreement or the HIPAA Rules.
17. Regulatory References. A citation in this Agreement to the Code of Federal Regulations shall mean the cited section as that section may be amended from time to time.

Program Goals And Objectives

The Health Options for Moving toward Empowerment (HOME) Project is administered by Foundation Communities (FC), an experienced supportive housing and services provider located in Austin/Travis County, Texas for over twenty years. This effort will provide Permanent Supportive Housing combined with Assertive Community Treatment (ACT) team services and other community-based supports to serve chronically homeless individuals with co-occurring substance use disorders, mental health disorders, and/or chronic physical health conditions. HOME will serve 40 unduplicated individuals over the 30 month project period.

Program Clients Served

The focus population for this project will be formerly chronically homeless, unaccompanied individuals residing in Austin/Travis County, Texas living in FC single room occupant communities (Garden Terrace, Spring Terrace, Skyline Terrace, Arbor Terrace, and Capital Studios) with diagnosed co-occurring disorders including:

- * substance use disorders,
- * mental health disorders, and/or
- * chronic physical health conditions

Many will also be frequent users of the City jail, County jail, and the Austin Resource Center for the Homeless emergency overnight shelter. They will likely have histories of disproportionate use of emergency medical services such as 911 transports, hospital emergency rooms, and inpatient psychiatric and substance abuse services. The selection of this population is based both on the major barriers to hope, self-sufficiency and personal empowerment, as well as the fact that despite the relatively small proportion of the area's homeless population they represent, they have disproportionately high utilization of these noted public systems.

All individuals will have incomes below 200% of the federal poverty level, and will either be enrolled in Medicaid or be uninsured.

Program Services And Delivery

HOME will use an Assertive Community Treatment team service delivery strategy that will strive for fidelity to the model's principles and standards identified in published literature, including those enumerated in the SAMHSA Evidenced-Based Practices Kit "Assertive Community Treatment: Evaluating Your Program." Services will be provided directly by FC or through partnerships for integrated healthcare needs including physical health, mental health, and substance use disorders.

Consumer housing choice will be maximized to the greatest degree possible, and all housing will be provided by FC using a leased-based, Permanent Supportive Housing model at FC's single room occupant/efficiency apartment communities. Rental subsidies will be provided to ensure client rent contribution does not exceed thirty percent of Adjusted Gross Income. All clients admitted to the project will be current FC PSH tenants meeting the target population criteria, or those future tenants meeting target population criteria to be provided with FC PSH based on unit availability. Changes in residence do not require program exit if the client continues to demonstrate need for program services.

Project enrollees will not be required to participate in any specific mental health or substance abuse recovery treatment prior to entering housing, to remain in the housing, or to remain in the ACT team project once enrolled. Project participants also will not be required to maintain sobriety as a housing or project participation condition, but will be required to conduct themselves consistent with requirements of a standard Texas Apartment Association lease and written FC Community Standards distributed to all tenants. A Stages of Change approach will be employed to meet the clients at the recovery stage where project staff finds them, and project enrollees will develop a self-sufficiency plan reflecting their personal recovery and support goals.

Project participants will be identified and engaged using an array of assertive outreach approaches, including evidenced-based practices such as Critical Time Intervention and Motivational Interviewing. ACT team services will be targeted at appropriate tenants, and formal referrals will be made by supportive services, property management, and after hours support staff. This targeted assertive outreach will be directed to tenants meeting ACT Team qualifying criteria whose housing stability and wellness are jeopardized by having difficulty paying rent consistently, following community policies, or appearing

to struggle with physical health, behavioral health, or substance use issues. All enrolled consumers will minimally have contact with an ACT team member or partner agency staff at least weekly during project enrollment. Additionally, informal engagement will be achieved through participation by enrollees in community-building recreational/social activities at the PSH sites.

The ACT team positions funded specifically through this City of Austin contract will include a full-time ACT team leader/Project Director, multiple intensive case managers (ICM), and the peer recovery coaches (at least one supported employment/peer support specialist at each of five FC housing sites). The Team Leader(s), Registered Nurse, Peer Recovery Coaches, and Intensive Case Managers will all be housed in offices located at the FC PSH communities. Each intensive case manager will have a client to staff ratio that does not exceed 10 to 1. This client to staff ratio for intensive case management is based on published research that ACT team services have been demonstrated to be most effective with clients with the most intensive needs; therefore a client/staff ratio not exceeding 10 is needed to ensure that services can be provided at the intensity level required.

Clinical psychiatric and substance use disorder treatment services will be provided primarily by partner agencies. At least 2 part-time psychiatrists, one on-call and one clinic-based, will be shared among the 5 housing communities utilized in the project, as well as an at least half-time registered nurse. Clinical services will include psychiatric evaluations, psychopharmacological assessments, medication management, psychotherapy, intensive outpatient services for substance use, mental health, and co-occurring disorders, individual and group peer to peer recovery support services, psychotherapy using evidence-based models such as cognitive behavioral therapy and trauma-informed interventions, and clinical care management from a registered nurse for integrated primary and behavioral healthcare needs. Crisis psychiatric services will be provided after business hours by a crisis outreach team consisting of the Project Director/ACT team leader(s), on-call psychiatrist, intensive case managers and the project nurse. All FC SRO communities have onsite support staff 24 hours a day/7 days a week, as well as on-call ACT staff available after hours and on weekends.

Additional housing stability supports will include supported employment services, transportation assistance, and limited direct financial assistance focusing on emergency rental assistance, as well as healthcare, substance abuse treatment, and workforce reentry needs. Other contracted supports include access to a Goodwill Employment Specialist on-site, and in-home support services to assist with housekeeping, laundry, meal preparation, shopping, and companionship. All FC PSH also includes fitness and recreation equipment/facilities, as well as planned community-building activities both on and off site.

System for Collecting and Reporting Program Data

Foundation Communities collects, enters, and utilizes data throughout its services and programs. Foundation Communities also uses HMIS for its current contract with the City of Austin, has fulfilled all of the data entry and reporting requirements, and will continue to do so. Each program participant will be assessed with the Adult Needs and Strengths Assessment (ANSA) upon enrollment in the program and again at least annually. ANSA scores will be recorded and reported as required by the City of Austin.

Performance Evaluation

The Project Director will have the primary responsibility for performance evaluation, and will rely on a wide range of input from many sources, including data collected for this and other grant-funded projects. The FC Grants and Contracts Manager will perform all grant related reporting on the project to the City of Austin.

Quality Improvement

To ensure continuous quality improvement, Dr. William Kelly of UT-Austin, formerly the external evaluator for the FC SAMHSA funded project, will provide consultation (funded through other sources) on program processes, outcomes, and structure; as well as provide periodic feedback and technical assistance on an ongoing basis.

Service Coordination with Other Agencies

Lone Star Circle of Care (LSCC) will be the chief integrated primary care/behavioral health/psychiatric services provider. Lone Star Circle of Care is a Federally Qualified Community Health Center (10T FQHC1 0T) and a nonprofit organization whose goal is to serve as a health care "safety net" for Central Texas. For this project, LSCC will be providing a complete health care home (primary care and behavioral health services) for formerly chronically homeless individuals living in FC supportive

housing.

Dr. Gregory Paul, MD will serve as the on-call psychiatrist. He is in private practice and has partnered with FC in this role since 2010. He is a Diplomate of the American Board of Psychiatry and Neurology with added Qualifications in Forensic Psychiatry. He has worked locally with Austin/Travis County Integral Care, Austin Recovery, Texas Star Recovery, the Austin Police Department, and in various contracted roles within the Travis County criminal justice system. Within this project, Dr. Paul will perform psychiatric evaluations, psychopharmacological assessments, medication management, and psychiatric crisis response to clients unwilling or unable to seek out such services at a clinic, to clients who need interventions immediately and after regular business, or for those clients who just prefer working with him. He provides this care onsite at FC SRO communities, and all services are provided at no cost to the clients.

Austin Recovery is one of the project's experienced, licensed substance abuse services provider. It is a non-profit alcohol and drug treatment provider serving medically indigent people who cannot afford health insurance or adequate medical care. Austin Recovery's treatment model combines advanced counseling and therapies with the principles of the 12 Step program to meet individual client needs. This approach incorporates the NIDA's 13 Principles of Effective Treatment and uses the best current practices in the field of chemical dependency treatment. After completing treatment, clients who wish to continue their recovery in a supportive setting can join our Alumni Association and participate in a year-round schedule of sobriety-based social and social service activities.

The Seton Mind Institute (SMI) is another of the project's experienced, licensed substance abuse services providers. As part of this project, SMI will provide an Adult Mental Health Intensive Outpatient Program designed to help individuals who do not require hospitalization, but can benefit from participation in a structured therapeutic environment. SMI offers Dialectical Behavioral Therapy (DBT), a model that assumes people who suffer intense emotional discomfort frequently engage in self-destructive and avoidance behaviors, and therefore DBT is designed to help adults who struggle with regulating their emotional responses and often act on impulsive behaviors. SMI's Adult Chemical Dependency Intensive Outpatient Program is specifically designed to treat alcohol and chemical dependency based on a 12-step model, and its Dual Recovery Intensive Outpatient Program is designed to serve the adult population experiencing a psychiatric disorder that is co-occurring with a substance abuse/chemical dependency problem.

Austin Clubhouse will provide supported employment services for the peer mentor and peer recovery support positions. A Clubhouse is a psychosocial rehabilitation program for adults with severe and persistent mental illness, designed to support their psychiatric stability by addressing quality of life issues -- namely, engaging in meaningful work (either volunteer or paid, or volunteer transitioning to paid) and in meaningful relationships. Participants are known as "members" and work side-by-side with Clubhouse staff to do the work of the Clubhouse. Membership is entirely voluntary, but the working atmosphere inside the Clubhouse is contagious, and members begin to experience what it is like to be needed and expected. The Clubhouse is organized around the work-ordered day, daily routines are normalized and Clubhouse activities focus on vocational and social experiences.

An array of other supports will be accessible to the project participants. In-kind support will also come in the form of Medicaid billing and RN Clinical Care Coordination through UnitedHealthcare. Additionally, the project will receive grant funding provided by the St. David's Foundation Healthy Minds program, the Travis County Criminal Justice Planning Division's Justice Reinvestment Initiative, and the Austin/Travis County Religious Coalition to End Homelessness. In addition to the Intensive Case Managers, clients will have access to regular meetings with the Supportive Service Coordinators at each housing site and/or with other members of the property management team as requested. Each housing site has a food pantry with regular monthly access, and occasional emergency access, available to all project participants. And given that many chronically homeless individuals will come with limited possessions, welcome baskets with household set-up items will be provided.

H.A.N.D will also provide in-home support services and individual support to assist clients in developing independent living skills as well as assist clients with performing basic housekeeping, meal preparation, and laundry activities. Austin Clubhouse will also provide transportation to medical appointments and shopping as needed. Classes will also be available onsite from agency staff and community partners on computer skills, personal fitness, healthy cooking, Self Management of Chronic Disease, Mental Health First Aid, and financial education with credit counseling.

Either party may make a written request for a meeting between representatives of each party within fourteen (14) calendar days after receipt of the request or such later period as agreed by the parties. Each party

Negotiation may be waived by a written agreement signed by both parties, in which event the parties may proceed directly to mediation as described below.

8.18.2 If the efforts to resolve the dispute through negotiation fail, or the parties waive the negotiation process, the parties may select, within thirty (30) calendar days, a mediator trained in mediation skills to assist with resolution of the dispute. Should they choose this option, the City and the Contractor agree to act in good faith in the selection of the mediator and to give consideration to qualified individuals nominated to act as mediator. Nothing in the Contract prevents the parties from relying on the skills of a person who is trained in the subject matter of the dispute or a contract interpretation expert. If the parties fail to agree on a mediator within thirty (30) calendar days of initiation of the mediation process, the mediator shall be selected by the Travis County Dispute Resolution Center (DRC). The parties agree to participate in mediation in good faith for up to thirty (30) calendar days from the date of the first mediation session. The City and the Contractor will share the mediator's fees equally and the parties will bear their own costs of participation such as fees for any consultants or attorneys they may utilize to represent them or otherwise assist them in the mediation.

Program Goals And Objectives

The Health Options for Moving toward Empowerment (HOME) Project is administered by Foundation Communities (FC), an experienced supportive housing and services provider located in Austin/Travis County, Texas for over twenty years. This effort will provide Permanent Supportive Housing combined with Assertive Community Treatment (ACT) team services and other community-based supports to serve chronically homeless individuals with co-occurring substance use disorders, mental health disorders, and/or chronic physical health conditions. HOME will serve 40 unduplicated individuals over the 30 month project period.

Program Clients Served

The focus population for this project will be formerly chronically homeless, unaccompanied men and women in Austin/Travis County, Texas living in Foundation Communities' 5 single room occupant communities (Garden Terrace, Spring Terrace, Skyline Terrace, Arbor Terrace, and Capital Studios) with diagnosed co-occurring substance use disorders, mental health disorders, and/or chronic physical health conditions. Many will also be frequent users of the Austin city and Travis County jails, and the Austin Resource Center for the Homeless emergency overnight shelter, as well as have histories of disproportionate use of emergency medical services such as 911 transports, hospital emergency rooms, and inpatient psychiatric and substance abuse services. The selection of this population is based both on the major barriers to hope, self-sufficiency and personal empowerment they face, as well as the fact that despite the relatively small proportion of the area's homeless population they represent, they have disproportionately high utilization of these noted public systems.

All individuals will have incomes at or below 30% of the Austin/Travis County Median Family Income, and will either be enrolled in Medicaid or be uninsured.

Program Services And Delivery

HOME will use an Assertive Community Treatment team service delivery strategy that will strive for fidelity to the model's principles and standards identified in published literature, including those enumerated in the SAMHSA Evidenced-Based Practices Kit "Assertive Community Treatment: Evaluating Your Program." Services will be provided directly by FC or through partnerships for integrated healthcare needs including physical health, mental health, and substance use disorders.

Foundation Communities will serve as the project's lead agency, managing partner, fiscal agent, housing provider, and provide overall leadership for ACT team services. Staffing for the project will include 2 ACT team leaders (one is a licensed clinical social worker also serving as Project Director), 13 Intensive Case Managers (ICM), one half-time registered nurse, a clinic-based part-time psychiatrist, an additional part-time psychiatrist for on-call site-based and crisis services, and at least 5 part-time peer support specialists.

Consumer housing choice will be maximized to the greatest degree possible, and all housing will be provided by FC using a leased-based, Permanent Supportive Housing model at five single room occupant/efficiency apartment communities with a total of 600 units. Rental subsidies will be provided to ensure consumer rent contribution does not exceed thirty percent of Adjusted Gross Income. All clients admitted to the project will be current FC PSH tenants meeting the target population criteria, or those future tenants meeting target population criteria to be provided with FC PSH based on unit availability.

Project enrollees will not be required to participate in any specific mental health or substance abuse recovery treatment prior to entering housing, to remain in the housing, or to remain in the ACT team project once enrolled. Project participants also will not be required to maintain sobriety as a housing or project participation condition, but will be required to conduct themselves consistent with requirements of a standard Texas Apartment Association lease and written FC Community Standards distributed to all tenants. A Stages of Change approach will be employed to meet the clients at the recovery stage where project staff finds them, and project enrollees will develop a self-sufficiency plan reflecting their personal recovery and support goals.

Project participants will be identified and engaged using an array of assertive outreach approaches, including evidenced-based practices such as Critical Time Intervention and Motivational Interviewing. ACT team services will be targeted at appropriate tenants, and formal referrals will be made by supportive services, property management, and after hours support staff. This targeted assertive outreach will be directed to tenants meeting ACT Team qualifying criteria whose housing

stability and wellness are jeopardized by having difficulty paying rent consistently, following community policies, or appearing to struggle with physical health, behavioral health, or substance use issues. All enrolled consumers will minimally have contact with an ACT team member or partner agency staff at least weekly during project enrollment. Additionally, informal engagement will be achieved through participation by enrollees in community-building recreational/social activities at the PSH sites.

The ACT team positions funded specifically through this City of Austin contract will include a full-time ACT team leader/Project Director, 2 full-time intensive case managers (ICM), and the peer recovery coaches (at least one supported employment/peer support specialist at each of five FC housing sites). FC and its partners will provide the additional ACT team leader and 11 additional case managers, with funding coming from other sources. The Team Leaders, Registered Nurse, Peer Recovery Coaches, and Intensive Case Managers will all be housed in offices located at the FC PSH communities. Each intensive case manager will have a client to staff ratio that does not exceed 10 to 1. This client to staff ratio for intensive case management is based on published research that ACT team services have been demonstrated to be most effective with clients with the most intensive needs; therefore a client/staff ratio not exceeding 10 is needed to ensure that services can be provided at the intensity level required.

Clinical psychiatric and substance use disorder treatment services will be provided primarily by partner agencies. At least 2 part-time psychiatrists, one on-call and one clinic-based, will be shared among the 5 housing communities utilized in the project, as well as an at least half-time registered nurse. Clinical services will include psychiatric evaluations; psychopharmacological assessments; medication management; psychotherapy; intensive outpatient services for substance use, mental health, and co-occurring disorders; individual and group peer to peer recovery support services; psychotherapy using evidence-based models such as cognitive behavioral therapy and trauma-informed interventions; and clinical care management from a registered nurse for integrated primary and behavioral healthcare needs. Crisis psychiatric services will be provided after business hours by a crisis outreach team consisting of the Project Director/ACT team leader(s), on-call psychiatrist, intensive case managers and the project nurse. All FC SRO communities have onsite support staff 24 hours a day/7 days a week, as well as on-call ACT staff available after hours and on weekends.

Additional housing stability supports will include supported employment services, transportation assistance, and limited direct financial assistance focusing on emergency rental assistance, as well as healthcare, substance abuse treatment, and workforce reentry needs. Other contracted supports include access to a Goodwill Employment Specialist on-site, and in-home support services to assist with housekeeping, laundry, meal preparation, shopping, and companionship. All FC PSH also includes fitness and recreation equipment/facilities, as well as planned community-building activities both on and off site.

System for Collecting and Reporting Program Data

Foundation Communities collects, enters, and utilizes data throughout its services and programs. Foundation Communities also uses HMIS for its current contract with the City of Austin, has fulfilled all of the data entry and reporting requirements, and will continue to do so. Each program participant will be assessed with the Adult Needs and Strengths Assessment (ANSA) upon enrollment in the program and again at least annually. ANSA scores will be recorded and reported as required by the City of Austin.

Performance Evaluation

The Project Director will have the primary responsibility for performance evaluation, and will rely on a wide range of input from many sources, including data collected for this and other grant-funded projects. The FC Grants and Contracts Manager will perform all grant related reporting on the project to the City of Austin.

Quality Improvement

To ensure continuous quality improvement, Dr. William Kelly of UT-Austin, formerly the external evaluator for the FC SAMHSA funded project, will provide consultation (funded through other sources) on program processes, outcomes, and structure; as well as provide periodic feedback and technical assistance on an ongoing basis.

Service Coordination with Other Agencies

Lone Star Circle of Care (LSCC) will be the chief integrated primary care/behavioral health/psychiatric services provider. Lone Star Circle of Care is a Federally Qualified Community Health Center (10T FQHC1 0T) and a nonprofit organization whose

goal is to serve as a health care "safety net" for Central Texas. For this project, LSCC will be providing a complete health care home (primary care and behavioral health services) for formerly chronically homeless individuals living in FC supportive housing.

Dr. Gregory Paul, MD will serve as the on-call psychiatrist. He is in private practice and has partnered with FC in this role since 2010. He is a Diplomate of the American Board of Psychiatry and Neurology with added Qualifications in Forensic Psychiatry. He has worked locally with Austin/Travis County Integral Care, Austin Recovery, Texas Star Recovery, the Austin Police Department, and in various contracted roles within the Travis County criminal justice system. Within this project, Dr. Paul will perform psychiatric evaluations, psychopharmacological assessments, medication management, and psychiatric crisis response to clients unwilling or unable to seek out such services at a clinic, to clients who need interventions immediately and after regular business, or for those clients who just prefer working with him. He provides this care onsite at FC SRO communities, and all services are provided at no cost to the clients.

Austin Recovery is one of the project's experienced, licensed substance abuse services provider. It is a non-profit alcohol and drug treatment provider serving medically indigent people who cannot afford health insurance or adequate medical care. Austin Recovery's treatment model combines advanced counseling and therapies with the principles of the 12 Step program to meet individual client needs. This approach incorporates the NIDA's 13 Principles of Effective Treatment and uses the best current practices in the field of chemical dependency treatment. After completing treatment, clients who wish to continue their recovery in a supportive setting can join our Alumni Association and participate in a year-round schedule of sobriety-based social and social service activities.

The Seton Mind Institute (SMI) is another of the project's experienced, licensed substance abuse services providers. As part of this project, SMI will provide an Adult Mental Health Intensive Outpatient Program designed to help individuals who do not require hospitalization, but can benefit from participation in a structured therapeutic environment. SMI offers Dialectical Behavioral Therapy (DBT), a model that assumes people who suffer intense emotional discomfort frequently engage in self-destructive and avoidance behaviors, and therefore DBT is designed to help adults who struggle with regulating their emotional responses and often act on impulsive behaviors. SMI's Adult Chemical Dependency Intensive Outpatient Program is specifically designed to treat alcohol and chemical dependency based on a 12-step model, and its Dual Recovery Intensive Outpatient Program is designed to serve the adult population experiencing a psychiatric disorder that is co-occurring with a substance abuse/chemical dependency problem.

An array of other supports will be accessible to the project participants. In-kind support will also come in the form Medicaid billing and RN Clinical Care Coordination through UnitedHealthcare. Additionally, the project will receive grant funding provided by the St. David's Foundation Healthy Minds program, the Travis County Criminal Justice Planning Division's Justice Reinvestment Initiative, and the Austin/Travis County Religious Coalition to End Homelessness. In addition to the Intensive Case Managers, clients will have access to regular meetings with the Supportive Service Coordinators at each housing site and/or with other members of the property management team as requested. Each housing site has a food pantry with regular monthly access, and occasional emergency access, available to all project participants. And given that many chronically homeless individuals will come with limited possessions, welcome baskets with household set-up items will be provided.

Two organizations, H.A.N.D and Family Eldercare, will also provide in-home support services and individual support to assist clients in developing independent living skills as well as assist clients with performing basic housekeeping, meal preparation, and laundry activities. These partners will also provide transportation to medical appointments and shopping as needed. Classes will also be available onsite from agency staff and community partners on computer skills, personal fitness, healthy cooking, Self Management of Chronic Disease, Mental Health First Aid, and financial education with credit counseling.

Service Collaboration with Other Agencies

The subcontractor partnership funded by this application (Austin Clubhouse) has a concise, but thorough Memorandum of Understanding spelling out all terms and responsibilities, including payment.

The Austin Clubhouse (AC) is a professional, self-help program for adults living with mental health diagnoses in Austin/Travis County and surrounding communities. AC opened in August 2010, and to date has over 350 members, 90 of which are or have been employed. For this project, AC will hire, train, and support Peer Recovery Coaches to work with project participants at the FC housing locations. AC will also provide employment reentry services to project clients, as well as transportation to the Clubhouse's work ordered day program.

HOMELESS MANAGEMENT INFORMATION SYSTEM (HMIS) REPORTING REQUIREMENTS

Organizations receiving funding from the City of Austin for homelessness prevention and homeless intervention services are required to utilize the local Homeless Management Information System (HMIS) to track and report client information for individuals who are at risk of homelessness or who are homeless. A high level of data quality is required. The Ending Community Homelessness Coalition (ECHO) currently serves as the local HMIS administrator.

Requirements Include:

- All settings for client records will be in accordance with HMIS policy in order to reduce duplication of records and improve service coordination
- HMIS user licenses must be purchased for staff entering data into City-funded programs (may use City funds for licenses)
- Organizations must have an ECHO HMIS Memorandum of Understanding
- Data quality report(s) submitted monthly with a rating of "Excellent" or "Acceptable"
- Participation in Annual Point-in-Time Count, Annual Homeless Assessment Report (AHAR), and other required HUD reporting
- Participation in the required annual training for each licensed user as well as attendance at required City-sponsored training(s) regarding HMIS and CTK ODM System

Periodic reporting to the City will include levels of compliance with all requirements listed above as well as any feedback regarding the HMIS system.

If data quality reports fall below minimum standards, payments may be withheld until reports improve to "Excellent" or "Acceptable" ratings.

These requirements also pertain to all Subcontractors serving people who are homeless under this agreement.
